Champagne Wishes Rose

Rosa 'BAICham'

Height: 4 feet

Spread: 4 feet

Sunlight: ☉

Hardiness Zone: 4a

Group/Class: Easy Elegance Rose

Description:

This elegant variety is very hardy and disease resistant; lovely apricot buds open and mature into antique white blooms, contrasting deep green foliage below, consistently blooming throughout the season

Ornamental Features

Champagne Wishes Rose features showy double white flowers with peach overtones and gold eyes at the ends of the branches from early summer to late fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Champagne Wishes Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Champagne Wishes Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Champagne Wishes Rose will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
